Advantages of Physical Therapy:

- No side effects
- Cost-effective
- Supported by clinical research*
- Customized to treat the underlying cause

If you're ready for relief,
and tired of "masking" your pain,
treat the cause, not just the symptoms!

Your Recovery Process:

- Recovery of joint motion
- Recovery of strength
- Pain relief
- Improved function
- Independent care

Components of Your Care:

- A thorough biomechanical evaluation
- Extensive patient education
- A customized treatment plan
- Effective joint mobilization techniques to decrease joint stiffness
- Pain-relieving modalities such as ice, heat, ultrasound or electrical stimulation
- Targeted stretching for tight muscles
- Progressive strength training
- Balance and functional re-education

Everyone is different. You may require one or two visits, or an extended care plan over several weeks or months.
